Dear Angelique Rockas,

Thank you very much for your letter, its information regarding New Theatre and the invitation to be a member of your advisory group. I accept that invitation without hesitation. You are quite right in believing that I would endorse the principles of an internationalist company.

I have made a note of your address and telephone number as it seems likely that I will be in London in June. It would be good to meet and hear more about your work... the reviews you sent me certainly suggest a commendable standard.

Good luck with your next production.

Athol Fugard.
